

Property Access Agreement

Cherry Capital Connection, LLC (CCC) is asking permission to access your property to extend an internet service line (fiber). This service line shall be installed from the roadway to the side of your house at a depth not less than 12 inches below ground.

A utility box (approximately 12 inches high, 12 inches wide, and 3 inches deep) will be installed on the outside of the home. This utility box will be used to protect the fiber connection and provide the transition point into the home.

CCC will attempt to identify all existing utilities, public and private.

CCC will call Miss Dig to locate public utilities on your property. Flags or paint markings will aid in marking utilities. These markings should not be disturbed until after the service line is installed.

If you are aware of any private utilities such as an invisible fence, water well line, private electric, septic system, or any other private utilities: we request that you provide this information to our onsite technician.

If CCC damages a utility, you will authorize ccc to repair the damage in a timely manner, at a reasonable cost. You will hold CCC harmless and will not take any further action.

By signing this document, you hereby grant access to maintain and repair the service line on the property to Cherry Capital Connection, LLC, a Michigan Limited Liability Corporation, with its principal office at 97 Lake Street, Elk Rapids, MI. 49629, and its successors.
