Fiber to the Home Top 10 Reasons to Connect

- 1) Because it is available.
- 2) Get speeds up to 1 Gbps
- 3) Provides unlimited data
- 4) Best high-speed Internet available
- 5) Streaming TV saves you money
- 6) Enabled WiFi calling means reliability cell
- 7) Provides 98% customer satisfaction
- 8) Increases the value of your home by 5.1%
- 9) A generational solution
- 10) It just works

- A. Investment just \$5,000.
- B. Payment plans are available.
- C. Action required by Sept 15, 2021
- D. Construction done by end of summer 2022

Cherry Capital Connection, LLC

Modern Local Telephone Company, WISP, FISP, CLEC

www.cccfiber.com

Today's study found that, for homes where 1 gigabit-per-second broadband was available, **transaction prices were over 7 percent higher** than homes located where the highest speed available is **25 Mbps** or lower.

<https://www.fiberbroadband.org/blog/study-shows-home-values-up-3.1-with-access-to-fiber>

2019 study done by RVA LLC revealed that consumers experience with fiber was 98% satisfaction compared to other mediums such as Cable, Wireless, DSL or satellite. FBA released a new metric called the Broadband Experience Index ("BEI"). The BEI, developed for FBA by Render Associates, is intended to give consumers a more comprehensive and reliable methodology for comparing broadband services in real-world applications rather than only measuring broadband based on speeds.

Action required

By Sept 15, 2021.

Sign the petition or e-mail sales

CCC will contact you

Not reaching our goal postpones the project until 2023.

What Happens

When we receive the required commitment level construction begins.

The required commitment is 50% of the households committing by Sept 15.

There are over 300 households included in the design so we will continue to collect commitment until we reach 80%.

Monthly Subscriptions

50Mbps x 50Mbps	\$88
100Mbps x 100Mbps	\$128
1Gbps x 1Gbps	\$156

Seasonal plans

Requires a minimum 6 month commitment at the preferred plan rate.

Example 6 months at gig \$156 = \$936 for the months of May-June-July-Aug-Sept-Oct. The months of Nov-Dec-Jan-Feb-Mar-Apr are billed at lowest rate of \$88 per month = \$528. The **total due is \$1,464 a savings of \$408 providing a 21% savings.**

Why now?

A group of your neighbors have have been working with CCC for over a year. They see the success with FttH in the Gills Pier area and understand how fiber will create economic opportunity for the areas of Omena Point and Cathead Bay.

Waiting is not an option. The cost of material and labor is on an increase. CCC has guaranteed this pricing if we start this year. To do so requires an immediate commitment.

Is this sustainable? Yes!

Getting 150 households to commit gets the process started. CCC is looking to connect 100% of the households and for 80% to subscribe monthly. Our track record demonstrates this is achievable.
