

## Install Pricing Special

2019 Summer season special through September 2019: Installation for **Fixed Point Wireless or Fiber just \$249.00 a savings of \$151.00.**

[Fftp-sales@cherrycapitalconnection.com](mailto:Fftp-sales@cherrycapitalconnection.com)

If you have ever called the office you have more than likely interacted with Bruce Vaughn. Bruce's contributions to the success of CCC is long and his service to CCC is appreciated. May 1, 2019 Bruce has decided to begin his retirement. We would like to thank Bruce for all that he has accomplished. I seriously doubt he will sit quietly at home, Desi will not let him. So confidence is high you will see him somewhere in the Elk Rapids or Traverse City area.

Our support crew from (top picture) left to right is Matthew Herbon (Support Specialist), Caleb Mayer (Special Projects and Fiber), Mike Michanowicz (Fixed Point Wireless Specialist), Shaemas O'Donnell (Fixed Point Wireless Specialist), Tim Maylone (CEO), Justin Maylone (COO), Alex Lockhart (IT Service Specialist) and Faron Mayer (Special Projects and Fiber Coordinator). Vicki Wygonik leads our billing department with support from our CPA firm, Maner Costerisan.

### Next Generation of Networks (NGN) and 5G

The challenges associated with NGN and 5G are complex. Cherry Capital Connection delivers a simplified solution. Benefits to you will be:

- ⇒ **More speed**
- ⇒ **Opportunities to save money**
- ⇒ **Increased consumer choice**

Next Generation of Networks will do to the internet what the internet did to telecommunications. A positive, yet disruptive effort. The consumer is in the drivers seat.

### CCCFIBER

The time to embrace FIBER is now. CCC feels the future will not wait so why should we. The first question from consumers is how does CCCFIBER benefit me?

- ⇒ **Saves you money**
  - ⇒ Lower cost of TV content
  - ⇒ Lower cost for phone service
- ⇒ **Fast, Reliable and Secure**
- ⇒ **Future proof your connection to the internet**
- ⇒ Increases property value
- ⇒ Professionally installed to meet your needs

## Preferred method to Funding Fiber: “Getting Back to our Roots”

Now that you have an idea of why fiber benefits you, lets talk about how to get construction started.

**“Capital”** There are many options for funding a fiber project. Unfortunately, none of these options traditionally do much good for remote and rural areas. We have searched down every rabbit hole. Traditional loans, USDA loans, Grants, etc. They all have their draw backs. The best answer turns out to be the funding model that we used to bring you Fixed Point Wireless. It’s simple and has worked for 19 years. The next step: Pick a plan that fits in your budget for prepayment. Construction will begin as soon as July for the communities that prepay first. We will only have time to complete three fiber hoods in 2019. Don’t delay, tell your neighbors, and get connected first!!!

### Fiber-Hood Funding Model

How do you benefit under the Fiber-Hood funding model? (Savings)

- ◆ Installation fees \$400 have been reduced to \$249. **Savings \$151**
- ◆ Prepay the 24 month connection commitment fee of \$240 and pay only \$200. **Savings \$40.**

- ◆ Prepay for High Speed internet access:

Prepayment savings by plan and number of months prepayment			
Plan 1 (25 x 25)	Plan 2 (50 x 50)	Plan 3 (75 x 75)	Plan 4 (100 x 100)
\$40.80	\$52.80	\$64.80	\$76.80
\$97.92	\$126.72	\$155.52	\$184.32
\$171.36	\$221.76	\$272.16	\$322.56
\$261.12	\$337.92	\$414.72	\$491.52
\$408.00	\$528.00	\$648.00	\$768.00

- ◆ 12 Month Prepayment: **Save 5%**
- ◆ 24 Month Prepayment: **Save 6%**
- ◆ 36 Month Prepayment: **Save 7%**
- ◆ 48 Month Prepayment: **Save 8%**
- ◆ 60 Month Prepayment: **Save 10%**
- ◆ Prepay for 36 months or greater and save an additional **\$100** on the connection commitment fee
- ◆ Switch your phone line to VoIP and use the internet to make your calls. Monthly savings can be up to **\$30.**
- ◆ Switch from cable and satellite to IPTV and watch TV over the internet. Monthly savings can be up to **\$35.**

**To secure your savings contact our billing department and let us know your preferences**

**For planning purposes and to get your neighborhood moved to the top of the list; call the office to register your prepayment option!**

**Internet Access**  
starting at  
**\$66<sup>00</sup>**  
per month  
**UNLIMITED DATA**

Cherry Capital Communications is looking for Neighborhood Champions. When you sign up or take the survey let us know you are interested in helping to get your neighbors signed up and the project moving forward. Want to know more call the fiber sales team at **231-264-9970** option 2.

### CCC is requesting assistances with documenting your needs for fiber

The state of Michigan (sofMI) has introduced a new broadband development program called “CMIC”. **Cherry Capital Communications** plans to submit an application. The application must be submitted by August 31, 2019. If a grant is awarded, we will use the funds to help with construction of Fiber to the Home. Based on data supplied by the “sofMI” there are less then 6,000 households eligible for funding throughout the 13 county area that CCC services. **CCC** needs your help collecting data regarding your experience. We are asking that you fill out our survey. **Let us know what speeds you are actually experiencing.** With the survey results we hope to encourage the “sofMI” to recognize your neighborhood as eligible for funding. **Take our survey <https://ccc.servicezones.net>**
